ABOUT THE COURSE

What this course covers

This diploma introduces the 3D pipeline: modelling, texturing, lighting, animation principles and compositing for visual effects. Projects build towards a finished shot you can include in a showreel.

LEARNING OUTCOMES

By the end of the course you will be able to

- Model and texture 3D assets
- Light and render a scene
- Animate using core animation principles
- Composite CG elements into live footage

HOW YOU LEARN

Online, with structure and support

Recorded video lectures
Watch lessons at your own pace and revisit them whenever you need to.

Live interactive sessions
Scheduled sessions with faculty for questions, demonstrations and reviews.

Practical assignments
Hands-on tasks after each module so you practise what you learn.

Study material
Notes, reading lists and reference sheets for every module.

Projects
Module projects that build towards a final piece of work you can show.

Assessments
Quizzes and reviewed submissions to track your progress through the course.

WHO CAN JOIN

10+2 in any stream

The admissions team confirms the latest eligibility during counselling.

WHAT YOU NEED

A smartphone or computer with a stable internet connection.

Some practical modules may need basic tools or software; these are explained before the batch starts.
