

GBET Online
Gautam Buddha Educational Trust

ADMISSIONS 2027

Diploma | AI & Technology

Diploma in Artificial Intelligence

Learn Python, machine learning, neural networks, computer vision and NLP through projects.

PROGRAMME
Diploma

DURATION
1 Year

MODE
Online · recorded + live

ELIGIBILITY
10+2 with Mathematics/Computer preferred

MODULES AT A GLANCE

1. Python for AI
2. Machine Learning Foundations
3. Neural Networks
4. Computer Vision and NLP
5. Capstone Project

ABOUT THE COURSE

What this course covers

This diploma starts with Python programming and the maths behind machine learning, then covers neural networks, computer vision and natural language processing. It ends with a capstone project.

LEARNING OUTCOMES

By the end of the course you will be able to

- Write Python programs for data tasks
- Train and evaluate machine learning models
- Build simple neural network models
- Apply AI techniques to images and text

HOW YOU LEARN

Online, with structure and support

Recorded video lectures

Watch lessons at your own pace and revisit them whenever you need to.

Live interactive sessions

Scheduled sessions with faculty for questions, demonstrations and reviews.

Practical assignments

Hands-on tasks after each module so you practise what you learn.

Study material

Notes, reading lists and reference sheets for every module.

Projects

Module projects that build towards a final piece of work you can show.

Assessments

Quizzes and reviewed submissions to track your progress through the course.

WHO CAN JOIN

10+2 with Mathematics/Computer preferred

The admissions team confirms the latest eligibility during counselling.

WHAT YOU NEED

A smartphone or computer with a stable internet connection.

Some practical modules may need basic tools or software; these are explained before the batch starts.

CURRICULUM

5 modules, from foundations to a final project

Each module combines recorded lectures, a live session and a practical assignment.

01 Python for AI

Python basics · NumPy and pandas · Data visualisation

Outcome: Write Python code to analyse data.

02 Machine Learning Foundations

Supervised and unsupervised learning · Model evaluation · Feature engineering

Outcome: Train and evaluate a machine learning model.

03 Neural Networks

Perceptrons and layers · Training and backpropagation · Deep learning frameworks

Outcome: Build and train a neural network.

04 Computer Vision and NLP

Image classification · Text processing · Using pre-trained models

Outcome: Apply AI to image and text problems.

05 Capstone Project

Problem definition · Building the solution · Presenting results

Outcome: Deliver an end-to-end AI project.

HOW EVERY MODULE WORKS

STEP 1	STEP 2	STEP 3	STEP 4
Watch	**Discuss**	**Practise**	**Get feedback**
Recorded lectures at your own pace	A live session with faculty	A hands-on assignment	Reviewed work and a short assessment

CAREER OPPORTUNITIES

Where these skills are used

AI Associate
Supports AI teams with data preparation and model work.

ML Intern
Assists with experiments and model evaluation.

Automation Analyst
Identifies and builds automation for business tasks.

AI Product Support
Helps users and teams work with AI tools.

Career outcomes depend on individual effort, experience and the job market. Placement is not guaranteed.

ADMISSION PROCESS

How to join

1. **Enquire**
Fill in the enquiry form on gbetonline.com or call the admissions team.

2. **Counselling call**
An advisor explains the course, eligibility, batch dates and fees.

3. **Document check**
Share your eligibility documents for admission verification.

4. **Confirm admission**
Receive your fee plan and pay through the student portal or the admissions office, with an official receipt.

5. **Start learning**
Log in to the GBET Online student portal for lessons, live classes and study material.

Fees: shared by the admissions team during counselling. Pay only through the GBET Online student portal or the admissions office, and always collect an official receipt.

GOOD TO KNOW

Common questions

Does the course guarantee a job?
No. The course is designed to build practical skills and a portfolio of work. Career guidance and interview preparation are available, but placement is not guaranteed.

What do I receive when I complete the course?
On completing the modules and assessments, you receive a diploma completion document from GBET Online. The admissions team explains the details during counselling.
